

PRESS RELEASE

Strategic alliance for the development of cleaning solutions

Fedegari Group and IWT are pleased to announce they are now partnering in delivering more efficient cleaning machines, combining Fedegari's expertise in sterile processing with IWT's specific know-how and industrial manufacturing model.

Pavia and Varese - December the 1st, 2023

Fedegari (www.fedegari.com) and IWT (www.iwtpharma.com), both acknowledged manufacturers of high quality cleaning equipment, courageously agreed to combine their unique strengths to design and manufacture specialized cleaning solutions, targeting the specific needs of the biopharmaceutical companies, facing the challenges of the development of innovative drugs.

"Fedegari is regarded as the supplier of the most reliable machines and plants characterized by a unique design used world-wide in manufacturing critical sterile drugs and MDs.

Together with IWT, we will create cutting-edge technology products and platforms designed to meet the more specific requirements of the industry that is looking for efficient and validatable alternatives to manual washing operations" said Giuseppe Fedegari, Fedegari Group's President.

"As one team, boasting over 100 years of combined experience in GMP and sterile process solutions, we aim to unlock the full potential of automated cleaning solutions. We are committed to assisting our clients in validating their sterile processes according to Annex 1 in the safest, easiest, and fastest way, thereby propelling their business forward" added Alessandro Bernardini, Managing Director of IWT Srl.

The alliance between Fedegari and IWT Pharma is a **remarkable achievement that will boost the performance and quality of sterilization and cleaning processes in the Life Science sector.**

By combining our expertise and resources, we will be able to offer innovative solutions that meet the highest standards of safety, efficiency, and environmental responsibility.

This demonstrates our shared vision and dedication to addressing the evolving challenges and opportunities of the industry.

Giuseppe Fedegari
President, Fedegari Autoclavi SpA
