BLENDER CLEANING

Do you have to...

- ▶ Automatically clean a large and tall blender
- ▶ Reduce the down-time of the equipment increasing productivity
- ▶ Implement a fully validated cleaning process, faster and cost effective
- ▶ Increase the safety for the operators

IWT have the perfect cleaning solution:

M-LINE HIGH PRESSURE WASHER

- ▶ Multiple hydrokinetic lances connection for total internal volume coverage
- ▶ 70Bar | 1015Psi water pressure for an impressive scraping effect on surfaces
- ▶ 7 min total cycle time
- ▶ Low water consumption: only 40l/min | 10gal/min
- ▶ - 82% water, - 90% time compared to previous manual cleaning process
